

Pheasant Mixture

Pheasant Mixture: We're proud of our uniquely crafted Pheasant Mixture, a blend of seeds designed to create the ideal habitat for pheasants and other wildlife. Leading the mix at 30% is Red Grain Sorghum, a plant characterized by its hearty structure and seeds, providing excellent cover and food. The mix includes 20% Koto Buckwheat, a highly nutritious and fast-growing plant favored by wildlife, paired with 20% White Proso Millet, an ideal source of high protein grain. We've also added 20% Peredovik Sunflower, known for its high oil content seeds which are a particular favorite of birds, alongside 10% Japanese Millet, a plant that thrives in wetter soils, adding diversity to the mix. Together, our Pheasant Mixture ensures a blend of food, cover, and habitat diversity for a thriving population.

Mixture:

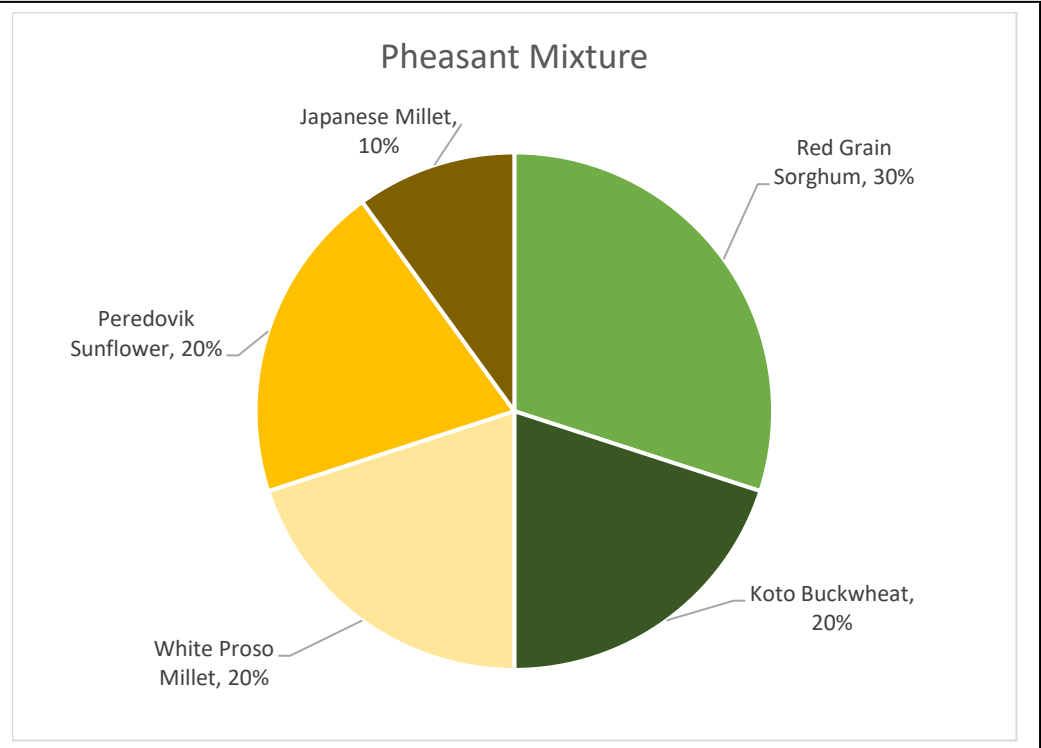

30% Red Grain Sorghum

20% Koto Buckwheat
