

SHADY ELITE LAWN SEED MIXTURE

Shady Elite Lawn Seed Mixture: This mixture is specifically designed for those seeking an attractive lawn in less sunny areas. This unique blend combines a variety of grasses each with specific traits that make them suitable for shade tolerance and resilience. The mixture includes 35% Kentucky Bluegrass varieties, known for their ability to endure varying light conditions while maintaining a dense texture. These variants, while thriving in sunlight, also demonstrate reasonable shade tolerance. The blend also contains 20% Turf-Type Perennial Ryegrass, contributing to quick lawn establishment and added disease resistance. Comprising 20% of the mix, Turf-Type Tall Fescue is an excellent choice for shady lawns, with its deep root system ensuring good water retention and durability. Rounding out the mixture is 25% Creeping Red Fescue, a grass variety celebrated for its performance in moderate shade and its low-maintenance nature.

Mixture:

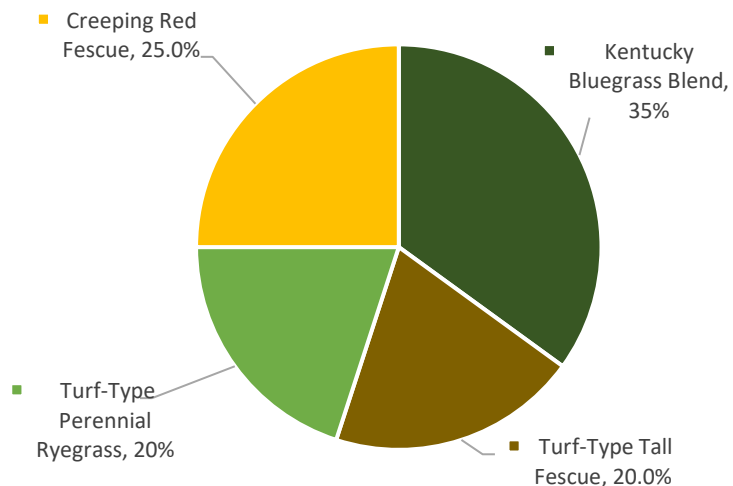

35% Kentucky Bluegrass Blend

20% Turf-Type Tall Fescue

25% Creeping Red Fescue

20% Turf-Type Perennial Ryegrass

Shady Elite Lawn Seed Mixture

Recommended Use/Seeding Rate

New Lawns:

- Rake area 2-3 inches deep to loosen soil
- Apply seed at approximately **4-5 lbs per 1,000 square feet**
- Lightly rake the seed into the soil so it is slightly covered
- Lightly water the seed 3-4 times per day for approximately 3-4 weeks

Seeding Existing Lawns:

- Mow the existing grass area at least 1 ½ inches high and remove the grass cuttings
- Apply seed at approximately **2-3 lbs per 1,000 square feet**
- Rake the planted surface so the seed will filter through the turf and make soil contact
- Lightly water 3-4 times per day until the grass is established
